PROFESSIONAL SUMMARY

I am an upbeat, solutions-savvy Full Stack Web Developer. I worked almost three years as a UX Designer and created many polished, fully functional, interactive prototypes of websites for clients. I am creative, adaptable, a team-player, and very detail-oriented. I possess a great curiosity that fuels my quest for knowledge.

TECHNICAL SKILLS

Languages: MERN Stack, JavaScript, MySQL, jQuery, Handlebars, JSON, APIs, Axios, AJAX

Applications: Github, MySQL Workbench, Heroku, MongoDB Atlas, Google Analytics/Optimize, Axure, Hotjar, Adobe Creative Suite, Wordpress

Technologies: Git, Bootstrap, MVC Framework, Local Storage, Service-Workers, Session Storage, IndexedDB, Progressive Web Applications (PWAs), User Authentication, Google Lighthouse

EXPERIENCE

User Experience Designer Full-Time Employee

2017 – 2020

Imaginuity

Dallas, TX

- Collaborated with clients, UX team members, creative team members, and developers to create sitemaps, wireframes, mock-ups, and prototypes of client websites.
- Provided clients with quantifiable feedback regarding areas where usability best practices are not followed within their applications through audits.
- Created a fully fleshed out Design System in order to create standards and conventions to be followed by all team members.
- Frequently received shout-outs in company-wide emails and earned various weekly company recognition awards for standout performances.
